Summary

Professional frontend developer with 2 years of hands-on experience in a **Startup company**. Expertise in application development, API integration in React, team working, and management. Looking forward to enhancing these skills with a high-growing organization.

Professional Experience

Biencaps Systems Pvt. Ltd. Pune, Software Developer ☑

Jan 2021 – present | Pune

- Built multiple web applications using React Js & agile methodology with maintaining them, enhancing features, and regular updates.
- Worked in an innovative environment and achieved high-quality results even under strict deadlines
- Played the role of technical lead in 3 projects and developer in 8+ projects

Projects

Core2web, Learning Management System ☑

A well-managed website for students to learn courses, forum for Q&A as well as dashboard for admin. Implemented features like adding course content, managing admissions, attendance, and fees management, and played the role of technical lead developer.

Tech Stack: React Js, Redux, Javascript, Spring Boot, SASS, NPM

Boom Panda: India's coolest platform, A gig economy ☑

A platform for students to earn through interesting tasks, offers, and events. Implemented a content management system to handle all the data flow. Got a chance to practice KYC verification, QR codes to redeem offers, export & show analytics using charts.

Tech Stack: ReactJS, Redux, Axios, AWS S3 ChartJs, Javascript, SASS, Node, MySQL

Zealwise, Responsive Commercial Website, Managment Information system ☑

A commercial website that describes the company's services and highlights its unique selling points and MIS to oversee company's internal working. Collaborated with team members to accomplish our first project. Learned redux, Form validations, export sheets, and dashboard design.

Tech Stack: React JS, Javascript, SASS, NodeJs

Payroll, Payroll Management System

A well-maintained website for generating attendance and payroll of employees. Implemented CRUD operations on company data like designation, departments, and employees. Exported salary sheets in pdf format

Tech Stack: React JS, Redux, Axios, NodeJs, RESTful APIs integration

Wood4Sure, Asian Paints

A multi-user web application to manage site data visited by contractors. Implemented routing in react, secured access of portal using expiry link. Generated signed URL to upload and access files from spaces. Learned to download multiple images in zip format.

Tech Stack: React Js, Digital Ocean Spaces API, Redux, Javascript, Node, Pre-signed URLs

And many other applications such as **Washmart India** to keep track of laundry users, **E-charge** for vehicle charging, and many more.

Project Contribution

- Developed **react component** with API binding using **react-redux**
- Create **project architecture & code structure** with a senior developer
- Discuss **project strategies** and **distribute tasks** using sprints
- Deploy projects on **Netlify** for testing
- Maintain project versions on **Git** and **merge code**
- Implemented **multi-user-based** applications
- Integration of various **cloud services**, AWS S3, digital ocean Spaces, etc
- Authorization with **JSON web token**

Skills

Languages: Javascript, HTML, CSS, C, C++, Java, MySQL

Libraries, Frameworks & others: React Js, Redux, SASS, Unit testing with Jest, Responsive Design, NPM, AWS SDK, RESTful APIs integration, JWT Authorization, Browser debugging

Familiar With: Visual Studio, Git, Netlify, Ngrok

Education

Bachelor of Computer Engineering, Savitribai Phule Pune University

2017 – 2021
